

Dear Sir/Madame:

Accu-Tech, Inc.'s primary objective in business is to provide our customers with the most professional solutions for third-party metrology services. While maximizing our resources to further enhance our business, we will continually improve the level of measurement service for our customers.

We have been in the third-party inspection service for the automotive and aeronautical industries for ten years. By expanding our business to the medical industry with the purchase of a Mycrona Vision System, we have vastly improved the capabilities of our measurement. Our inspectors have well over fifty years of combined experience as special machine builders, model and tool builders, fixture builders, and most importantly CMM inspectors.

Being a leader in third-party inspection services is important to us. We were one of the first laboratories to become ISO/IEC 17025 certified, and we continue to maintain this status. Our equipment is fully traceable, extremely accurate, and highly repeatable. When you choose us for your third-party, A2LA-accredited inspection services, expect the best quality available around the globe and expect real results. We pride ourselves in our easy to follow and professional reporting system.

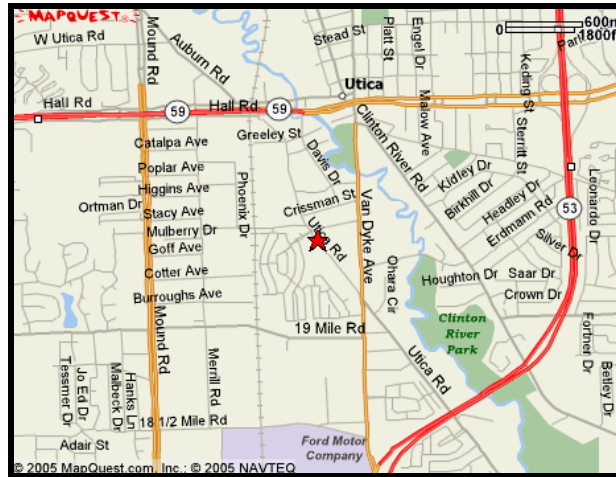

Sincerely,

Edmund Drozdowski Jr.

Edmund Drozdowski Jr.

PARTS

REPORTS
MAPS
STATS

YES

Every inspection receives:
-Clear and concise report, (available in many formats)
-Color "road map,"
-Certificate, and/or
-Certification Sticker.

Part studies also receive:
-Quick statistical report,
-Graphical statistical report,
-PPAP submission report, and/or an AIAG report.
-Other Gage R reports.

N.I.S.T.
TRACEABLE

YES

Accu-Tech's inspection equipment and our coordinate measurement machines (CMMs) are certified and fully traceable to the National Institute of Standards and Traceability.

ACCURATE EQUIPMENT

YES

BROWN & SHARPE Bridge Xcel CMM 12-20-10
This machine is capable of Measurement Range:
108 x 53¼ x 43¼ in. or 2740 x 1355 x 1100 mm

BROWN & SHARPE Bridge Xcel CMM 9-15-9
This machine is capable of Measurement Range:
77 x 41¼ x 35 in. or 1950 x 1045 x 890 mm

BROWN & SHARPE Bridge Xcel CMM 9-15-8
This machine is capable of Measurement Range:
77 x 41 1/4 x 31.5 in. or 1950 x 1045 x 800 mm

BROWN & SHARPE Horizontal 3000 CMM
This machine is capable of Measurement Range:
235 x 69 x 90 in. or 5975 x 1750 x 2285 mm

Mycrona Altera Silverline CMM/Vision
This machine is capable of Measurement Range:
440 x 400 x 300 mm

3-D
VISION

YES

Our laboratory uses Brown & Sharpe CMMs so accurate that our *Expanded Volumetric Uncertainty* is less than one-thousandth of an inch! Meanwhile our Mycrona vision system has sub-micron performance with multi-sensor technology.
