

Accu-Tech, Inc. Purchases Mycrona Blueline Signum

Wednesday January 3, 8:36 am ET

The Purchase of Another Mycrona to Start Off A New Year in Business.

STERLING HEIGHTS, Jan. 3 – Accu-Tech, Inc. (www.accutechmeasurement.com) an ISO certified, third-party measurement company, announced the purchase of Mycrona Blueline Signum in an effort to expand its market share in the vision measurement service industry.

Accu-Tech, Inc. now owns two vision machines, which includes the Mycrona Silverline Altera purchased last year. Their services have earmarked a definite turning point in the company's growing stride to diversify its services across several different industries.

Initial images of the machine can be viewed by accessing the company's website under their laboratory vision page.

About Accu-Tech, Inc.

Accu-Tech, Inc.'s primary objective in business is to provide its customers with the most professional, easy to follow solutions for third-party metrology services. With a focus on the customer's needs, they are able to bring fourth solutions that helps aide to the growth in business. While maximizing their resources to further enhance the business, they will continually improve the level of measurement service for our customers.

They have been in the third-party inspection service for the automotive and aeronautical industries for over ten years. Expanding their business to the medical industry with the purchase of [Mycrona Vision Systems](#) has vastly improved the capabilities of measurement. Our inspectors have well over fifty years of combined experience as special machine builders, model and tool builders, fixture builders, and most importantly CMM inspectors.
