

Accu-Tech, Inc. Increases Exposure into Government Contracting

Monday, May 4, 1:08 pm ET

Upon efforts to diversify customer base, Accu-Tech, Inc. dedicates itself to serving the country via contracting.

STERLING HEIGHTS, May. 4 – Accu-Tech, Inc. (www.accutechmeasurement.com) has officially entered into the government-contracting arena announcing its entrance into the Central Contractor Registration (CCR) database. You can access the CCR through their website at www.ccr.gov. The cage code for the company for government contracting purposes is 5EUS4.

President Ed Drozdowski comments on the new entry, “We are hopeful to the possibilities this opportunity can afford us as a company to help serve the common good of the country. We feel can really help the public reduce costs in our areas of expertise when we are fully utilized.” For more information please call (586) 323-1181 or e-mail Ed Drozdowski at ed1@accutechmeasurement.com.

About Accu-Tech, Inc.

Accu-Tech, Inc. is an ISO 17025-2005 certified, Chrysler Approved Vendor involved in the third party inspection of parts and fixtures in the automotive, medical, aeronautical, and other industries. We have also recently increased our exposure to government contracts as well by becoming a part of the CCR database.

We are a leader in contract measurement using CMM (coordinate measurement machines) and vision machines. We constantly innovate our measurement techniques, cost-effectiveness, and engineering-friendly reporting end product. We offer a highly customizable service that will help reduce overhead, improve your efficiency, and enhance your results. The expertise of our operators and the state of the art equipment we possess makes us confident that we will impress your company with the services you will receive from Accu-Tech, Inc.
